

# **Prevention of intimate partner violence - a public health approach**

**Invitation to**

**CONFERENCE**

**MARCH 6th - 7th 2008**

**In Värmland, Sweden**

DAPHNE PROJECT JLS/DAP/2005-1/249/WYC

**The conference will focus on** maintaining public awareness; disseminate results and lessons learnt in each region – commonality, ideal work, legal systems and outline further steps. We want to inspire – results are possible to achieve!

### **We welcome participation of**

Representatives from operational level  
Representatives from strategic level (civil servants)  
Representatives from decision making level (politicians)

### **Aims:**

- Public Awareness
- Closing the project
- Dissemination of project results
- Lessons learnt in each region – commonality, ideal work, legal systems
- Further steps
- 

### **Target groups:**

- Representatives from operational level
- Representatives from strategic level (civil servants)
- Representatives from decision making level (politicians)

### **Expected outcomes of conference:**

- Influencing new strategic directions to incorporate into other work
- Inspiration – results are possible to achieve

## **Our project activities within the public health framework**

### **Hampton Trust, Hampshire**

School based programme, 8 x 90 minute sessions for 13 years plus, programme focuses on healthy and respectful relationships, training for professionals, materials on domestic violence for professionals.

### **County Council of Värmland**

Education of health care staff, focusing on identifying patient's experience of violence as cause of various symptoms and illness, increase knowledge on treatment for male patient's with violent behaviour. Increase knowledge on violence and health consequences for public stakeholders.

### **Men's counselling centre in Graz**

Various groups and individual therapies, clearing case management and post-therapeutic interventions.

Know-how transfer and contacts with most important partner organizations.

### **Devon county council**
