REPORT FROM THE YOUTH TEAM

Strasbourg, 01.03.2007

Dear Committee 2 Members,

Unfortunately none of the Youth Team members responsible for Committee 2 has the opportunity to participate at this meeting, so therefore we will give you a little report on what the Youth Team are working on regarding Committee 2 – Social Policy and Public Health.

The AER Youth Team 2006/2007 has already had two meetings. And we have lots of plans for 2007. One of them is regarding committee 2. We want to arrange a “Healthy way of living “ event in May. First of all we want this to be arranged in our respective regions.

This year we will arrange a small event, just to see how it works and if youth will attend this event. We also decided that since the regions don’ have the same problems, each region should decide for themselves what kind of event they will arrange, as long as it has something to do with promoting a healthy way of living for youth.

If this year’s event in each region goes well, we will already start planning next year’s event, that will be a bit bigger. And then we also hope that the European Youth Ambassadors attending the Youth Summer School will also arrange this event in their regions.

We also hope that Committee 2 members will support this event, by arranging this event next year in your own regions and help with the funding if any youth in your region wants to arrange this event.

The Youth Team also hope that we can continue to have good communication with the Committee 2 members and Secretariat in the future and that we will manage to arrange a great event next May with help from you.

If you have any questions regarding Youth Team or this event, please don’t hesitate to contact Marianne Bjerkeli (N): mariannebj@vfk.no (Youth Team member responsible for Committee 2)

On behalf of the Youth Team,

Marianne Bjerkeli
