Resources

The group is supported by the Committee 2 Secretariat.

The group's activities are financed under the Committee 2 budget. No fixed sum can be allocated to this group. Decisions on funding for the group will therefore be taken following consideration of the overall Committee 2 work plan.

In order to support members' initiatives, it is important to identify other potential funding sources: Foundations, European Social Fund, European Structural Funds, the Progress programme.

Working language: English

Interpretation into other languages may be provided on a case-by-case basis and depending on the Committee budget.

Possible partners

To better further its work and gain from existing expertise, it is important that our network liaises with external partners. Potential partners include, but are not limited to:

- European Disabilities Forum (<http://www.edf-feph.org/>)
- European Parliament Intergroup on Disabilities (<http://www.disabilityintergroup.eu/>)
- European Commission, Disability Unit of DG Employment, Social Affairs and Equal Opportunities (<http://ec.europa.eu/social/main.jsp?catId=429&langId=en>)
- Council of Europe (<http://www.coe.int/T/E/Com/Files/Themes/Disabilities/>)
- Business and Disability (<http://www.businessanddisability.org/>)
- European Network on Independent Living (<http://www.enil.eu/enil/>)

Cooperation with the disabilities movement is crucial to developing and implementing successful policies. Member regions will therefore develop links with the relevant representative organisations that are active at local level in their territories.
