

**ÖREBRO COUNTY COUNCIL  
(Sweden)**

**Answer to the AER call  
for Regional Best Practices on  
Climate Change**

**CALL FOR REGIONAL BEST PRACTICES ON CLIMATE CHANGE**

<b>NAME OF THE PROJECT</b>	Establishing a regional Energy Information Centre ( <i>Energicentrum</i> ) in Örebro.
<b>FIELD OF ACTIVITY</b>	Energy
<b>STARTING DATE</b>	1996 – 05
<b>CLOSURE DATE</b>	2007- 12
<b>WEBLINK</b>	<a href="http://www.energicentrum.nu">www.energicentrum.nu</a>
<b>PARTNERS ASSOCIATED TO THE PROJECT</b> <ul style="list-style-type: none"> <li>- <i>Project carried on only by your region?</i></li> <li>- <i>With other regions?</i></li> <li>- <i>With other local stakeholders?</i></li> </ul>	Regional Development Council The municipalities in the region Enterprises The national Energy Agency Swedbank
<b>MAIN DESCRIPTION</b>	Establishing a regional Energy Information Centre ( <i>Energicentrum</i> ) in Örebro. The first visitors got there in January 2007. The main purposes are to awaken the interest about energy and climate change among the citizens, and to offer consumers, schools, etc. unbiased information and energy advice. <i>Energy Information Centre</i> includes a show room, in which companies working in the field of energy may demonstrate their products, a conference room, and a workshop for children and schools in which they may learn more about energy, sustainability and technology. <i>Energy Information Centre</i> will specifically develop school activities and concepts for energy education. Our ambition is that <i>Energicentrum</i> will function as a source of inspiration and knowledge for teachers and children in Örebro County when it comes to adopting and learning about intelligent energy behaviour.
<b>KEY WORDS CHARACTERIZING YOUR PROJECT</b>	Energy advice centre, show room, products, enterprises
