

AER Youth Ambassadors Project 2009

by Anton Kuzmin
AER Youth Team member, AER Youth Ambassador
region Olomouc (CZ)

Title of the project: “Exchange of Best practices”

Description of the project:

2 phases of the project:

1st phase: representatives from 3 different regions and 3 different countries (Norway, Sweden, Vienna) are coming to Olomouc and presenting their best practices to employees of the regional government & local authorities (International department, Department of education, Economic Chamber, Bureau of Labor and representatives of the Olomouc Palacky's University).

2nd phase: 1-2 month later group of employees of the regional government & local authorities will visit regions of the representatives that have been in Olomouc during 1st phase to have a closer look at the local different projects and also to have a possibility to meet the people that have been working on those projects at the place and weren't able to come to Olomouc on the 1st phase.

Output: increase awareness of the problem of Youth Entrepreneurship, as for the fact that in Olomouc region there is lack of possibilities for Youth to start their own entrepreneurship. Participants of this project have to start working closely on solving of that particular problem. The change will take place affect this project in the longer horizon of time.
